

EXERCISE 6.C

WHAT ARE MY GOOD QUALITIES?

Often we are quick to mention our faults and overlook our good qualities. It is now time for you to pay special attention to what is good about you—focus on the aspects of your personality that make you *uniquely a good person*. Look at yourself in an honest and realistic way. You should not try to be polite and deny your strengths, but also you should not have to exaggerate to make up for not feeling good enough to be accepted by others.

1. Find the words that apply to you in the following list of nice things people say about other good people. Circle all those that describe you.
